TERMS

Prices are based on first quality stock, vigorous single rhizomes, free from disease and true to name.

Terms are net, cash with order, except for discount of ten per cent on orders of more than thirty dollars and discount of five percent on orders of more than ten dollars from A. I. S. Members.

Dealers should write for wholesale rates or for quotations on varieties not listed.

We cannot undertake responsibility for growth or flowering results. All stock is in good condition when shipped, and, with proper care, it should thrive under normal conditions.

No substitutions will be made unless ordered.

Shipping is done from the first of July to the first of September preferably, also at other dates if ordered.

Please include twenty-five cents on orders of less than two dollars to cover packing and postage.

Cultural Directions

Iris es should be placed to get a maximum of sunlight in ordinary sweet garden soil. When planting, spread roots and place rhizomes just under the surface. If ground is dry, water well to settle the soil about the roots. Late autumn planted stock needs some protection.
